

## Spectacular Savings Are Yours! The AXT Coat and the AXT Trouser CALL US TODAY FOR SPECIAL PRICING!

The AXT is the perfect combination of materials and design for protection in aircraft rescue and industrial applications. The Outer Shell utilizes a reflective aluminized film for radiant heat resistance laminated to a knit fabric blend of PBI®/KEVLAR® fibers for thermal stability. This outer shell protection is combined with an ARALITE® Thermal Liner and Stedair® 3000 Moisture Barrier. These three quality components matched together on the G-XTREME chassis results in a safe and comfortable ensemble that will have you ready to complete a successful rescue operation.

For complete Aircraft Rescue Fire Fighting (ARFF) Head-to-Toe protection, the AXT ensemble can be combined with:

- Shelby #5200 ARFF gloves
- Ranger #6211 ARFF boots
- Bullard #AX ARFF helmet

### The AXT meets NFPA 1971

#### Coat Standards

##### Model: G-XTREME Coat 32"

- 7.0 oz. Aluminized PBI®/KEVLAR® Outer Shell
- ARALITE® Thermal Liner
- Stedair® 3000 Moisture Barrier
- Snap-in liner/shell attachment for comfort and fit
- Two snap tabs to hold liner in place spaced evenly along bottom hem of coat
- Extra layer of thermal liner across the yoke and shoulders increases safety
- Contoured collar and free hanging throat tab provide protection and comfort
- AXTION™ back allows unrestricted movement with or without a SCBA
- Separating liner system for ease of inspection
- Contoured and AXTION™ sleeves provide ease of motion
- Thermally enhanced upper body and elbows in thermal liner provide increased thermal protection
- Aluminized PBI®/KEVLAR® elbow reinforcements increase durability
- One interior pocket lined with Stedair® 3000 Moisture Barrier to keep contents dry
- 7" PBI® hand and wrist guards for safety
- Grey ARASHIELD® cuff reinforcements
- Internal hanger loop to assist in storage
- Zipper and Velcro storm flap closure for easy donning or doffing
- 8"W x 8"H x 2"D hand warming pockets provide room for stowage
- 3.5" W x 9" H x 3"D radio pocket on left chest with antenna notch on left side and lined with a neoprene coated cotton/polyester moisture barrier material
- 1"W x 3"L Aluminized PBI®/KEVLAR® mic tab mounted high on right chest
- CAL OSHA Label
- Drag Rescue Device (DRD) provides security and ease of use

#### Trouser Standards

##### Model: G-XTREME Trouser

- 7.0 oz. Aluminized PBI®/KEVLAR® Outer Shell
- ARALITE® Thermal Liner
- Stedair® 3000 Moisture Barrier
- Snap-in liner/shell attachment for comfort and fit
- Independent stretch waistband and elasticized back allow for unrestricted fit
- AXTION™ seat design eliminates restrictions while stepping up, squatting and kneeling
- Vertical storm fly and permanently attached waist belt make for fast and secure donning and doffing
- Aluminized PBI®/KEVLAR® knee reinforcements increase durability
- Separating liner system for ease of inspection
- Thermally enhanced knees with an additional layer of thermal liner and moisture barrier for added thermal protection
- 10"W x 10"H x 2"D cargo pockets half-lined with Aluminized PBI®/KEVLAR® for longer wear life
- Grey ARASHIELD® cuff reinforcements
- Environmental seal at cuffs (water dam)
- Reverse boot cut for longer cuff life
- Padded ripcord suspenders for comfort and flexibility
- CAL OSHA Label
