

Spectacular Savings Are Yours! The C7K Coat and the C7K Trouser CALL US TODAY FOR SPECIAL PRICING!

The C7K, like the N2000, uses the Globe GX-7 design. This spec offers long-term durability with an ADVANCE™ Outer Shell. The combination of a CROSSTECH® moisture barrier and a CALDURA® SL thermal liner provides excellent comfort in hot or cold conditions.

The C7K coat has the AXTION™ back for unrestricted movement, while the trouser has big 10" x 10" expansion pockets for gloves and tools. All reinforcements at the cuffs and knees are ADVANCE™ material for easy decontamination. The C7K increases thermal protection with an extra layer of thermal liner across the yoke, shoulders and knees.

The C7K meets NFPA 1971

Coat Standards
